

SMART PD Plus Event

SMART Notebook™ Level 1 Training
plus SMART Math Activities

August 29 - 31, 2011
Bridgewater, New Jersey

Presented by Paul Lawrence

SMART Notebook Level 1 Training for your SMART Board™ interactive whiteboard

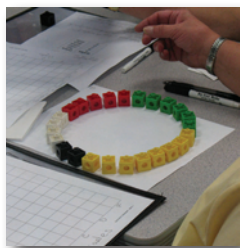

Level 1 is an introductory level event designed to help educators learn how to use the SMART Board interactive whiteboard to improve their daily work. The event is led by a SMART certified trainer who works with SMART products daily.

Unless otherwise indicated, events are delivered using SMART Notebook software with the Microsoft Windows operating system.

SMART Math Activities

What can I expect?

- A general overview and orientation to using individual response sleeves* in conjunction with SMART Notebook to ensure active participation by every student in the class.

- An example of a four-step game implementation process designed to ensure that students accurately follow the rules for games.
- Hands-on experiences with SMART Ready manipulatives.
- Targeted grade level explorations and examples of SMART Notebook lessons, games and templates. (Participants will be grouped by grade cluster).
- Techniques to create SMART Notebook activities.

* Commercially sold as Communicator® clearboards, individual response sleeves are plastic sleeves into which templates can be inserted and written on using dry-erase markers).

Who should attend?

K -12 supervisors and administrators, classroom teachers, and special education teachers who are interested in promoting hands-on, discovery-based mathematics lessons designed to engage ALL students, providing math games that can be easily used for differentiated activities, and using simulated manipulatives to help students understand and retain essential mathematics concepts.

What will I learn?

- How to combine the power of SMART technology with the simplicity of individual response sleeves (Communicator® clearboards).
- How to use a four-step game implementation model to ensure all students know game rules before playing them independently.
- How to create discovery-based lessons using SMART Ready manipulatives.

What will I receive?

- Selected SMART Notebook files, including games, lessons and templates.
- Membership to SmartMathlessons.com (a website with loads of free resources, including 500 discovery-based math lessons and over 1000 templates).
- A classroom set of Communicator® Clearboards (30 Communicators®, 30 EZ Erasable Markers, 30 EZ Erasers, and a Big Book of Communicator Templates).
